

Power In Knowing

Understanding Parkinson's disease

More than 1 million people in the U.S. have Parkinson's disease. Studies show that up to 78% of Parkinson's cases are undiagnosed. The movement disorder can cause slowness, stiffness and speech difficulties, but is treatable.

JOIN US FOR A FREE LUNCH AND EDUCATIONAL DISCUSSION AT ONE OF OUR UPCOMING "POWER IN KNOWING" EVENTS TO LEARN MORE ABOUT THE SIGNS, SYMPTOMS AND TREATMENT OPTIONS FOR PARKINSON'S DISEASE:

January 29, 2022 | Mt. Ellah Missionary Baptist Church

1462 NW 60th Ave., Micanopy, FL | 1 – 3 p.m.

February 5, 2022 | Greenhouse Church at Lincoln Middle School

1001 SE 12th St., Gainesville, FL | 10 a.m. to noon

March 26, 2022 | Gainesville Seventh-day Adventist Church

2115 NW 39th Ave., Gainesville, FL | 2 – 4 p.m.

Each event will feature a presentation from Dr. Ashley Rawls, a board-certified neurologist with the Norman Fixel Institute for Neurological Diseases at UF Health, a Parkinson's Foundation Center of Excellence.

Ashley Rawls, MD
UF Health Neurology

Registration is required; visit movementdisorders.UFHealth.org/power-in-knowing

This program provided by the Fixel Institute is funded by a Parkinson's Foundation Community grant. Our goal is to address disparities in Parkinson's disease diagnosis and treatment in the African American community.
